Outcome of Hamilton School Trouble

REPORT OF COMMITTEE

DOXEY WILL BE GIVEN ANOTH-ER SCHOOL

Cause of Trouble.

Cause of Trouble.

The retention of Mr. Doxey and the purposed dismissal of Misses Logan, Arnold and Harrison is the outcome of the agitation started at the investigation of Principal Doxey May 24 Superintendent Cooper had declined to recommend Mr. Doxey for re-employment and a number of the teachers under him had asked for transfers to some other school. The board decided to investigate and invited the teachers to attend and explain why they desired the transfers.

the transfers.

At that investigation Mrs. Parsons and Misses Logan, Thompson, Davis and Harrison appeared and explained their opposition to Doxey. They said in effect that he was incompetent; that he bullied the little boys and was afraid of the big ones; that he was coarse and rude in his manners, and that he was without the respect and that he was without the respect and confidence of his teachers. All of them asked to be transferred to other schools should Mr. Doxey be retained, and some of them stated that they would resign rather than teach under the transferred that him again. It will be remembered that five teachers asked to be transferred from the Hamilton school last year and four of these were transferred. Five others asked to be transferred

Superintendent Cooper would not discuss the matter last evening: He has refused to indorse Mr. Doxey and informed the board of education that it would be better for it to keep that gentleman at home and pay him his salary rather than to have him in the schools.

One of the features of the controversy between Mr. Doxey and his grade teachers is that his friends are claiming that he is being made a martyr to his religion; that the chief objection to him on the part of the teachers under him is that he is a Mormon.

Neither President Newman nor Mr. Geoghegan of the committee would say yesterday that any of the Hamilton teachers would be changes made in other teachers at the Hamilton. Principal Samuel Doxey of the Hamiton school has won a victory with the committee on teachers and school work of the board of education, and if the present programme is carried out a number of the grade teachers who asked for transfers from his school will be retired. It is stated that the report that the committee will make to the board this evening will exonerate Mr. Doxey and condenn some of the teachers.

One of the grievances against Miss Harrison, it is said, is that she gave scrious offense to some members on the school board by expressing the didea at the recent investigation of Principal Doxey that the public school system of Salt Lake was but ten years old, that it dated from the organization of the school board the school board the school board by representation of the school board by expressing the fides at the recent investigation of the school board by expressing the fides at the recent investigation of the school board by expressing the fides at the recent investigation of the school board by expressing the fides at the recent investigation of the school board the beginning of the era of erecting fine school buildings. Saturday afternoon Anderson and Fred Olsen hired a spirited horse attached to a light buggy and started for Salt Lake. On the way they thought it would be fun to loosen the reins and whip the animal to a high rate of speed. They acted on the impulse and for about a mile they had a mighty lively ride.

It was interrupted by a collision with a rig in which Fred Fritz, a photographer, was driving with a lot of supplies. The shock threw Fritz and his horse into a ditch partly filled with horse into a ditch partly filled with water. The animal fell across Fritz and he was nearly drowned before he could extricate himself. Anderson's thigh was injured, but Olsen escaped uninjured. The Fritz buggy was smashed to kindling wood, but the other vehicle was not damaged. Aside from a few bruises the horses came through all right.
